A | Provide SAR to Plan Participants (Calendar-year Plans Only)

Sept. 30, 2024

Employers must provide a summary annual report (SAR) to plan participants by Sept. 30, 2024, for calendar-year plans if the employee benefit plan's Form 5500 deadline was not extended. Plans exempt from the annual Form 5500 filing requirement are not required to provide an SAR. Unfunded welfare plans are also generally exempt from the SAR requirement.

B | Watch for MLR Rebates (Insured Health Plans Only)

Sept. 30, 2024

Employers with insured health plans might receive rebates if their health insurance issuers did not meet their medical loss ratio (MLR) percentage for 2023. Rebates must be provided by Sept. 30 following the end of the MLR reporting year.

A | Deadline for Providing SAR (Calendar-year Plans Only)

Many employers who must file Form 5500 on behalf of their employee benefit plans must also provide plan participants with an SAR. The SAR is a summary of the information included in the Form 5500. The SAR must be provided within nine months of the close of the plan year. For calendar-year plans, this deadline is Sept. 30, 2024. If the Form 5500 deadline was extended, the employer must provide the SAR within two months of the close of the extension period. For calendar-year plans, this extended deadline is Dec. 15, 2024.

The SAR requirement only applies to plans that must file a Form 5500. Self-insured welfare plans, regardless of size, are not required to provide an SAR if they are unfunded.

B | Deadline for Receiving MLR Rebates (Insured Health Plans Only)

Employers with insured group health plans may receive an MLR rebate from their health insurance issuers. Issuers who did not meet the applicable MLR percentage for 2023 must provide rebates to plan sponsors by Sept. 30, 2024.

Employers who receive MLR rebates should consider their options for using the rebate. Any rebate amount that qualifies as a plan asset under ERISA must be used for the exclusive benefit of the plan's participants and beneficiaries. Employers should use the plan asset portion of the rebate within three months of receiving it to avoid ERISA's trust requirement.
